MEMORANDUM

TO: Recipients of the
1996 Kentucky Coal Haul
Highway System Report

FROM: John L. Carr, P. E. *JLC*
Deputy State Highway Engineer
Office of Intermodal Planning

DATE: January 14, 1997

SUBJECT: 1996 Coal Haul Highway System Report —

Enclosed is the 1996 Kentucky Coal Haul Highway System Report prepared in compliance with KRS 42.455, Local Government Economic Assistance Program.

Information in this report was compiled from coal transporters' quarterly reports. We acknowledge the cooperation of the coal industry. Without their support, this report would not be possible.

If you have any questions or comments, please contact Jay Hoskins, Roadway Systems Section, at 502-564-7183.

Enclosure

KENTUCKY'S OFFICIAL

COAL HAUL

HIGHWAY SYSTEM

1996

Paul E. Patton
Governor

James C. Codell, III
Secretary of Transportation

KENTUCKY TRANSPORTATION CABINET
DEPARTMENT OF HIGHWAYS
DIVISION OF TRANSPORTATION PLANNING

December 1996

ROADWAY SYSTEMS SECTION

The Roadway Systems Section compiled this report from coal transporter information submitted from January 1, 1995 to December 31, 1995.

ORDERING INFORMATION

Additional copies may be ordered from the Kentucky Transportation Cabinet, Division of Transportation Planning, State Office Building Annex A-2, 125 Holmes Street, Frankfort, Kentucky 40622, Attn: Map Sales. They are available to the public for \$20.00 to cover printing costs plus 25% for shipping (\$5.00). Total Cost \$25.00, per copy. When ordering, enclose a check made payable to the Kentucky State Treasurer.

1996 KENTUCKY COAL HAUL HIGHWAY SYSTEM

INTRODUCTION

The 1996 Coal Haul Highway System is the system of public highways on which coal has been transported. The System designation is based on information submitted by coal transporters. This annual report, eighteenth in a series, has been prepared to comply with requirements of the Local Government Economic Assistance Act (KRS 42.455), and the Extended Weight Coal Haul Road System Law (KRS 177.9771).

The Local Government Economic Assistance Act (KRS 42.455) requires the Kentucky Transportation Cabinet to produce an annual report of the Coal Haul Highway System. They also require that the Cabinet determine Cabinet is also required to determine the coal haul ton-miles in each county using information submitted by the coal industry. The Cabinet is not responsible for the actual allocation of coal severance tax revenue to counties. The Local Government Economic Assistance Act, administered by the Kentucky Department of Local Government, uses the ton-mile information in the formulas for the distribution of coal severance tax revenue to coal producing and coal impact counties. Distribution formulas are based on a county's ratio of tax collected to the tax collected statewide, per capita income (inverse order), ton-miles of resource roads, population, and geographic area.

The Extended Weight Coal Haul Road System Law (KRS 177.9771) requires the Secretary of the Transportation Cabinet to designate an Official Extended Weight Coal and Coal By-products Haul Road System based on information collected from coal transporters who submit details of their truck shipments. The extended weight coal or coal by-products haul road system consists of public highways over which coal or coal by-products in excess of 50,000 tons were transported by motor vehicles from January 1, 1995 to December 31, 1995.

The 1996 Coal Haul Highway System Report is a series of maps, a table of coal ton-miles and percentages, and a listing of the public highways on which coal was transported. Counties where coal was reported shipped from mines during calendar year 1995 are designated coal producing counties. Counties where coal was transported by truck, but they reported none mined, are designated impact counties.

METHODOLOGY

To comply with KRS 42.455(8), every transporter of coal is required to report the routes and tonnages of coal shipped by truck on public roads in Kentucky. Each month the Kentucky Revenue Cabinet provides the addresses of coal severance taxpayers to the Transportation Cabinet. The Transportation Cabinet supplements this list from other sources and mails a Coal Shipment Route & Tonnage Report (TC 59-100) to each known coal transporter.

On the report form, coal shippers describe each route from a mine or other coal operation to a specific destination and indicate the tonnage hauled on that route. They are required to file a form even if they trucked no coal during the previous reporting period.

Within the Transportation Cabinet, the Roadway Systems Section in the Division of Transportation Planning, Kentucky Department of Highways, sends and receives report forms, compiles the data, and prepares an annual report. The standard for mileage on state maintained highways is the Transportation Cabinet's Highway Milepoint Log; they scale mileage on county roads and city streets from maps. On work maps of each county, coal haul personnel plot mines, tipples and other points of origin and destination, and the routes traveled by loaded coal trucks.

Route descriptions, with the tons transported, are entered into a database and a computer program tabulates tons, ton-miles and mileage for each county. Roads used during the study year are listed by Interstate, US or KY highway number or by name for parkways, county roads or city streets, and milepoints on them are explained by termini descriptions.

EXTENDED WEIGHT COAL AND COAL BY-PRODUCTS HAUL ROAD SYSTEM

This report does not denote highways, roads and streets included in the **EXTENDED WEIGHT COAL AND COAL BY-PRODUCTS HAUL ROAD SYSTEM**. This information may be obtained from:

CREDITS

We thank other state agencies that provide essential information -- the Revenue Cabinet, the Cabinet for Natural Resources and Environmental Protection, and the Department of Mines and Minerals --and the coal shippers and producers who provide the tonnage and route information. Without the cooperation of the coal industry, this report would not be possible.
